

Raja Rogers Meeting Notes
January 9, 2007

Ray	100 student school is very interested. Outside of Tampa in Plant City – Jim Schaefer is working with another school that is very interested – 1400 students. This is a transitory school with children of migrant farmers. Alcine is working with a few schools in St. Petersburg.
Raja Rogers	I've been working with Raja Luis – he has been very successful and has hundreds and hundreds of students meditating together. So I'll follow up on this too.
Jane	Need teachers who need to speak Spanish?
Ray	Plant City teachers were concerned with the fact that the students don't stay in one place for long and not concerned about language problems. So I said, once you put TM in the school, maybe students will stay there.
Alcine	I'm working with a private school in St. Pete, a school in Norwood where students come for 1 month, plus another school. Have been caring for my ill mother.
Raja Rogers	Remember for the lifeguard to save someone, they have to be in good shape. So pace yourself.
Jeff Murphy	We're in different phases of negotiations with several schools. We met with the 3 teachers who learned TM in Jan – from a middle school with 700 students. Have 1 school with a signed letter of intent. We need to encourage them to sign on the whole school, not just the freshman class, because the whole school projects are the ones that get the 75% scholarship. Big hurdle is for administrators and teachers to figure out how to find the time for the program. One teacher at a school figured out how to work in the quiet time, but then the word got out to the faculty and some other teachers said that the quiet time should be used for prayer. This is a top school in Lexington. Two other schools – 1 family care school – all teen mothers – 1 school for low motivated people. We've been invited to give a presentation with a medical doctor to a Louisville junior college.
Raja Rogers	You're taking good advantage of all the opportunities there.
Jane	Does the admin understand that during the quiet time that the students have a choice?
Jeff Murphy	Yes.
Raja Rogers	<p>We remember a school in NC that the TM organization spent a lot of time developing and then it was taken over by other people and we couldn't really teach TM. So it is a delicate thing to steer through.</p> <p>Update on the David Lynch Foundation – Big tour to NYC – the Lincoln Center. They were looking for a venue in NYC. Someone said, "Oh what about Lincoln Center." They said that they could never get it, but they called and they had a Friday night open – the first one in 6 mos – with only a few weeks notice. They are inviting VIP's. Totally sold out – 1100-1200. 600 are VIP's. Program will be David Lynch speaking about</p>

	<p>his new book, concert by Donovan and special meeting with VIP's afterwards. Great support of nature! Then he goes to DC and will speak in the Kennedy Center. 700 total seats – sold out. Donovan is also giving a concert. Ending up on the West Coast in the Kodak Theatre where they have the Academy Awards. 3300 seats – over 4000 people have requested tickets.</p> <p>There is tremendous support for the movement right now.</p>
Jane	TM may be one of the offerings for the girls in the South African school that Oprah started.
Raja Rogers	Yes, I have talked with Taddy from South Africa – the TM school there is going great.
Alcine	U of FL trounced Ohio State and now are the national champions.
Raja Rogers	That's good for our domain! We're working on getting support for our Internet marketing from the David Lynch Foundation. Making a strategy to get rid of the negative sites on the Internet. Interest in initiations has increased as we have seen from the National Call Center.
Elaine	Will post the list of all Atlanta domain contact information on our Atlanta Domain site so people can verify their Call Center info. On second thought, will email the info directly to the Governors so that will be a faster method.
Raja Rogers	<p>Usually happy if we book 70-80 days of tx per week. Over 120 last week and this week – already at 80.</p> <p>One of our schedulers has noticed that if we get back to people within 10 hours we get a better response.</p>
Alcine	I had a call from a gentleman who wants an Intro. Should I play a tape or tell them to wait for a male teacher to come and give him an intro?
Raja Rogers	Maharishi has been moving in the direction of a Ladies Peace Palace and a Mens Peace Palace. However he has also been emphasizing cash flow because a large amt of money was put out for many teachers and we didn't get the income. We do our best to instruct people quickly. Men should instruct men and ladies instruct ladies. But for intros, ladies can give them to men. If you play a tape as part of the Intro to men, let most of the presentation be the tape.
Jeff Murphy	Any word on when we can offer the short courses?
Raja Rogers	<p>Have you received the disks? I received a set. The disks have to have special passwords to unlock them. I will look into it.</p> <p>Jan 12 – it seems that Maharishi would not like the Rajas to travel a lot so it seems they will stay in their Vastus. The Raja Rajeshwaris arrived last week. New high speed (T-1) line installed so there will be a better quality broadcast.</p> <p>Jai Guru Dev</p>
